

Time to check your room environment!

Does the room look and smell clean?

Are toys and materials in good shape?

Are toys washed after use?

Are all electrical outlets covered?

Are hazardous materials locked away out of sight?

Can teachers see the entire room from any vantage point?

Are entrances secure so a child cannot leave undetected?

Are there spaces set aside for children's personal items?

Are the different centers/areas clearly defined and well supplied?
